SUMMARY

Motivated and dependable with a strong foundation in information systems, data analysis, and software development. Skilled in problem-solving, collaboration, and delivering high-quality results. Passionate about leveraging technology for process improvement and organizational efficiency.

EDUCATION

Central Michigan University

Aug 2024 - May 2026

Master of Science in Information Systems (MSIS) | CGPA – 3.95

Neil Gogte Institute of Technology, Hyderabad, India

Aug 2019 - June 2023

Bachelor of Engineering in Computer Science and Engineering

PROJECT

Simulation Powered Learning (SPL) SimProject

- Led a team of 6 employees in the successful execution of the Simulation Powered Learning (SPL) SimProject, ensuring effective resource allocation and on-time task completion over an 11-week period, including overtime hours.
- Facilitated stakeholder meetings to communicate progress, address concerns, and align project goals, contributing to the project's overall success and stakeholder satisfaction.

Technologies Used: SimProject

Canteen Automation System

- Developed and implemented an intuitive front-end design using HTML and CSS, optimizing the user interface for efficient order placement and reducing wait time.
- Created responsive and visually appealing web pages, resulting in a user-friendly platform that allowed customers to complete their orders in under 2 minutes, enhancing the overall dining experience.
- Collaborated in code review sessions, identifying areas for optimization and applying best practices in front-end development, improving system performance and usability.
- Demonstrated leadership skills by coordinating the team's efforts, assigning their tasks, setting clear goals, and ensuring that each member's strengths contributed effectively throughout the project.

Technologies Used: HTML, CSS, Python, Servlet, JSP, MySQL

WORK EXPERIENCE

Research Associate, Sutherland Global Services Private Limited

Nov 2023 - Jan 2024

- Optimized SQL queries for bulk data uploads, improving accuracy and efficiency.
- Identified and resolved errors in data uploads, ensuring compliance with deduplication requirements.
- Retrieved, processed, and exported data into Excel for reporting and analysis.
- Streamlined onboarding by preparing concise technical documentation.

SKILLS

- **Programming Skills:** Python (Certified – NASSCOM), Java (Basics), JSP, Servlets, HTML, CSS
- **Database and Data Visualization skills:** MySQL, SQL Server (Certified – Naresh I Technologies), Tableau, Power BI, ETL (Extract, Transform, Load), Data Processing
- **Business Analysis & Systems Design:** Requirement Gathering, Process Improvement, SDLC, Stakeholder Communication, Entity-Relationship Diagrams (ERDs), Data Flow Diagrams (DFDs).
- **AWS Skills:** Cloud Computing Fundamentals, AWS Global Infrastructure, Networking in AWS (fundamentals), AWS Core Services.
- **Course Work:** Information Systems, Communication in Professional Contexts, Application Development, Systems Analysis and Design, Database Management for Business Systems, Project Management Fundamentals, Business Decision Modeling.
- **Core Skills:** Requirement Gathering and Documentation, Project Management Basics, ETL Processes, Data Visualization, Data Structures, Data Modeling, Technical Documentation, Technical Proficiency, Data analysis, and Strategic Insights.
- **Active Certifications:** [AWS Certified Cloud Practitioner](#)
