SUMMARY

Information Systems graduate student with hands-on experience in data analysis, SQL, Python, and business intelligence. Skilled in building dashboards, analyzing datasets, and delivering data-driven insights using Power BI and Excel. Experienced in reporting, process improvement, and technical documentation, with a strong passion for solving business problems through analytics and technology.

EDUCATION

Central Michigan University

Master of Science in Information Systems (MSIS) | CGPA – 3.94

Aug 2024 - May 2026

Neil Gogte Institute of Technology, Hyderabad, India

Bachelor of Engineering in Computer Science and Engineering

Aug 2019 - June 2023

PROJECT

Sales Analytics Project (Python + Power BI)

GitHub: <https://github.com/pushkargadipalli-rgb/sales-analytics-project>

- Analyzed sales data using Python (Pandas, Seaborn, Matplotlib) to identify trends across categories, regions, and customer segments.
- Built an interactive Power BI dashboard to visualize KPIs such as sales, profit, and quantity.
- Identified key insights, including top-performing categories and the impact of discounts on profitability.
- Provided data-driven recommendations to improve business performance and optimize pricing strategies.

Customer Behavior Analysis (Python + SQL + Power BI)

GitHub: https://github.com/pushkargadipalli-rgb/Customer_Behavior_Analysis

- Analyzed customer purchase behavior across 3,900+ transactions using Python, SQL, and Power BI to identify demographic and spending trends.
- Designed SQL queries and performed data transformation to extract insights related to subscriptions, discounts, payment methods, and shipping preferences.
- Built an interactive Power BI dashboard with KPI tracking, customer segmentation, and behavioral analytics visualizations.
- Delivered actionable business insights and recommendations to improve customer engagement, retention strategies, and marketing effectiveness.

Technologies Used: Python, Pandas, NumPy, SQL, PostgreSQL, Power BI, Jupyter Notebook

PROFESSIONAL EXPERIENCE

Research Associate - Sutherland Global Services Pvt. Ltd.

Nov 2023 - Jan 2024

- Supported production data operations by validating, processing, and maintaining large datasets.
- Optimized SQL queries to improve efficiency and ensure accurate data uploads.
- Assisted in preparing structured reports using Microsoft Excel for operational and business review.
- Developed and maintained technical documentation, supporting onboarding and operational consistency.
- Worked independently on assigned tasks while collaborating with team members and escalating issues when required.

TECHNICAL & PROFESSIONAL SKILLS

- **Programming & Querying:** Python, SQL, PostgreSQL, MySQL, SQL Server, R (Basic), Java (Basic).
- **Data Analysis & Visualization:** Power BI, Tableau, Excel, Pandas, Matplotlib, Seaborn.
- **Databases:** MySQL, SQL Server.
- **Business & Analytical Skills:** Business Requirements Gathering, Process Analysis & Process Improvement, Stakeholder Communication & Collaboration, Data-Driven Decision Making, Documentation & Reporting.
- **Tools & Applications:** Microsoft Excel, Word, PowerPoint, Outlook
- **Cloud & Infrastructure:** AWS (EC2, S3, IAM – foundational knowledge), Cloud Computing Concepts, Enterprise Infrastructure Basics.
- **Core Concepts:** Data Analysis, Data Cleaning, ETL, Data Modeling, Statistical Analysis, Business Process Analysis.
- **Active Certifications:** [AWS Certified Cloud Practitioner](#), Lean Six Sigma Green Belt Certification
