SUMMARY

Information Systems graduate student with strong skills in data analysis, SQL, and business intelligence. Experienced in Python and Power BI for building data-driven solutions and dashboards. Passionate about solving real-world business problems using data.

EDUCATION

Central Michigan University

Aug 2024 - May 2026

Master of Science in Information Systems (MSIS) | CGPA – 3.94

Neil Gogte Institute of Technology, Hyderabad, India

Aug 2019 - June 2023

Bachelor of Engineering in Computer Science and Engineering

PROJECT

Sales Analytics Project (Python + Power BI)

GitHub: <https://github.com/pushkargadipalli-rgb/sales-analytics-project>

- Analyzed sales data using Python (Pandas, Seaborn, Matplotlib) to identify trends across categories, regions, and customer segments.
- Built an interactive Power BI dashboard to visualize KPIs such as sales, profit, and quantity.
- Identified key insights including top-performing categories and impact of discounts on profitability.
- Provided data-driven recommendations to improve business performance and optimize pricing strategies

Canteen Automation System

- Supported the development and maintenance of a transactional web-based system used for daily business operations.
- Assisted with backend database integration using MySQL and supported system workflows and data accuracy.
- Contributed to system documentation and collaborated in code reviews to improve usability and performance.
- Gained hands-on experience with application support, system processes, and user-focused IT solutions.

Technologies Used: HTML, CSS, Python, Servlet, JSP, MySQL

PROFESSIONAL EXPERIENCE

Research Associate - Sutherland Global Services Pvt. Ltd.

Nov 2023 - Jan 2024

- Supported production data operations by validating, processing, and maintaining large datasets.
- Optimized SQL queries to improve efficiency and ensure accurate data uploads.
- Assisted in preparing structured reports using Microsoft Excel for operational and business review.
- Developed and maintained technical documentation, supporting onboarding and operational consistency.
- Worked independently on assigned tasks while collaborating with team members and escalating issues when required.

TECHNICAL & PROFESSIONAL SKILLS

- **Programming & Querying:** Python, SQL, R (basic), Java (basic), HTML, CSS, JSP, Servlets.
- **Data Analysis & Visualization:** Power BI, Tableau, Excel, Pandas, Matplotlib, Seaborn.
- **Databases:** MySQL, SQL Server.
- **Tools & Applications:** Microsoft Excel, Word, PowerPoint, Outlook
- **Cloud & Infrastructure:** AWS (EC2, S3, IAM – foundational knowledge), Cloud Computing Concepts, Enterprise Infrastructure Basics.
- **Core Concepts:** Data Analysis, Data Cleaning, ETL, Data Modeling, Statistical Analysis.
- **Course Work:** Information Systems, Communication in Professional Contexts, Application Development, Systems Analysis and Design, Database Management for Business Systems, Project Management Fundamentals, Business Decision Modeling, Applied Lean Six Sigma QR, Business Data Analytics, Data Visualization: Theory and Practice, App of Project Manage Principles, Information Systems Project.
- **Active Certifications:** [AWS Certified Cloud Practitioner](#)
